

Logistics

Logistics Services

Logistics can mean the difference between success and failure for your business, and AFC is an industry leader in customized logistics solutions.

AFC offers a broad range of logistics management services, including value-added third party logistics, retail conversions, nationwide product laydowns, and merge in-transit programs. Our knowledgeable and experienced staff will work closely with you to maximize supply chains, improve inventory controls, lower costs, and increase profitability.

We also offer expert advice on warehousing, distribution, inventory control, transportation management, materials handling, packaging, and other business-critical logistics issues. AFC will even provide an on-site logistics coordinator, inventory location and control, or reverse logistics services when required. Some of our logistics services include:

- > Supply Chain Management
- > Cost Analysis Consulting
- > Traffic and Carrier Management
- > Warehouse Management
- > Transportation Management
- > Pick and Pack
- > Inventory Management and Control
- > Merge In-Transit
- > Reverse Logistics Services
- > Electronic Data Interchange
- > Materials Management
- > Assembly, Distribution, and Fulfillment

Truck

Truck Services

At AFC Worldwide Express we do more than just show up at your loading dock, we help you schedule, manage, and transport your goods door-to-door safely and efficiently.

Our experienced staff works closely with each customer to ensure that all loads are delivered within the customer's requirements. AFC offers nationwide truck services with around the clock dispatch coverage and satellite tracking throughout the US.

The AFC Customer Service Team also utilizes a web-based, interactive tracking and tracing system. From synchronizing your supply chain to overcoming complex transportation and logistics challenges, AFC makes sure that your time-critical cargo arrives on time at the designated location.
